

Vinal Tech CJPS

Exceptional Citizenship Award

The Criminal Justice and Protective Services Program Exceptional Citizenship Award is awarded to any member who receives recognition for an outstanding personal achievement in the community or who goes above and beyond in demonstrating humanity and compassion. On Friday, May 7, 2021, CJPS student V. L. demonstrated exceptional humanity and compassion. Upon returning from lunch, V. L. accompanied another student back to the CJPS shop with a look of concern on her face. V. L. explained that the other student began to experience some sort of distress on her walk back from the lunchroom. V. L. told me that the student asked to be taken to an adult for immediate assistance and the walk to CJPS was short, so they came back to shop. V. L. was familiar with the other student's history and needs and explained to me that the student needed a member of the guidance staff to respond and help as they were familiar with the student and their needs. V. L.'s calming demeanor helped the other student until she was able to get further assistance from guidance and the school nurse. The humanity and compassion displayed by V. L. is indicative of her excellent moral character.

Vinal Tech CJPS is proud to recognize V. L. and present her with the Exceptional Citizenship Award. Congratulations V. L.!
