

**OUR MISSION
WAS TO INFORM
FIRST
RESPONDERS
ABOUT THE
DISASTER AS
BEST WE COULD**

MISSION SUCCESS

We began monitoring this pandemic disaster in early January. We decided in February that we could do a better job providing first responders and medical personnel the limited information that was available by condensing the internet. Now, 11 weeks after we began our mission, first responders finally have the information resources they need available.

We are honored to have helped you all and will be here for you in future times of need!

**STAY SAFE AND
STAY STRONG!**

**TO ALL THE FIRST
RESPONDERS, MILITARY,
MEDICAL PERSONNEL, AND
THOSE KEEPING US SAFE,**

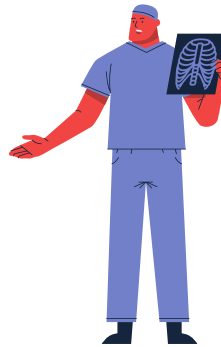

THANK YOU!

We're glad we were able to support your mission these past 11 weeks!

Stay Strong. Stay Safe.

HELPFUL LINKS WE USED TO CREATE YOUR WEEKLY BRIEFING

- rt.live
- CDC.gov
- WHO.int
- COVIDActNow.org
- Informationisbeautiful.net
- Coronavirus.jhu.edu
- Coronavirus.lpoint3acres.com/en
- Travelmaps.state.gov/TSGMap/

OUR BIGGEST TIP TO YOU: BE CAREFUL TRUSTING SOCIAL MEDIA AND VERIFY NEWS WITH MULTIPLE TRUSTED SOURCES.

We found all of these inaccurate or plain lies while creating our briefing for you! Stay vigilant in verifying your news!

- "Country music star Joe Diffie died of lung cancer, not COVID-19." FALSE
- "Spraying chlorine or alcohol on your skin kills the virus in your body." FALSE
- "Thieves are dousing masks in chemicals to render people unconscious and then rob them." FALSE
- "Coronavirus kills more people in one month than the flu kills in one year." FALSE
- "George Soros owns lab that developed COVID-19" FALSE
- "Exposing yourself to the sun or to temperatures above 25C prevents COVID-19." FALSE
